

Property Owner Approval Form

The Upper Mark West Community Wildfire Protection Plan Steering Committee is seeking property owner approval for the following project:

Project:

Submission of a grant to CAL FIRE for the completion of a shaded fuel break along St Helena Road, up to 30 feet from the edge of the pavement on both sides of the roadway. Ladder fuels, small trees and brush will be removed so that they don't provide a connection for flames to climb up into the canopy. The shaded fuel break can reduce fire intensity by the elimination of ladder fuels, while retaining and limbing-up larger healthier trees. The treatment work on your property will be provided free of charge to you and will be done according to CAL FIRE standards.
